Haan, possible hai. Lekin **bohot tough** hai. Tumhe extraordinary skills dikhani padengi — **DSA, Development, Projects, Open Source Contributions, Competitive Coding, System Design (later)** — tabhi chance banega.

📌 Google ke liye Degree Required hai kya?

Google officially ne bola hai ki:

"We hire based on **skills, not degrees**."

Lekin **in practice**, agar tumhare paas degree nahi hai to tumhe:

- Extra strong portfolio banana padega
- Publicly visible achievements hone chahiye (e.g., GitHub, LeetCode, Codeforces, Projects, Contributions)

✅ Skills Jo Tumhare Paas Hone Chahiye (Diploma + ₹2 LPM ke liye)

Skill Area	Kya Karna Hoga
✅ **Data Structures & Algorithms**	Leetcode 300+ questions, Codeforces/CodeChef Rating (1400–1700+)
✅ **Core Programming Language**	Java / C++ / Python (1 language expert level)
✅ **System Design** (basic)	LLD concepts, design patterns
✅ **Backend Development**	Java + Spring Boot / Node.js + Express
✅ **Frontend (optional)**	React.js
✅ **Open Source Contribution**	GitHub profile active hona chahiye
✅ **Competitive Coding / Hackathons**	Google Kickstart, CodeJam, HashCode try karo
✅ **Soft Skills**	Communication, Resume, GitHub, LinkedIn

🎯 Roadmap Without Degree (But With Determination)

1. 📚 **DSA + Problem Solving (6–8 months)**
   - Leetcode, GFG, InterviewBit, Codeforces
   - Master arrays, strings, trees, graphs, DP, etc.
2. 🔧 **Development Projects (4–6 months)**
   - Java + Spring Boot (backend)
   - 3–4 good GitHub projects (Blog App, E-Commerce API, Task Manager, etc.)
3. ☐ **Open Source Contribution + Resume**

- o   Participate in Hacktoberfest, GSoC (optional)
- o   Resume mein metrics ke sath projects daalo
4. 🎙️ **LinkedIn Branding + Referrals**
- o   LinkedIn par active raho, projects share karo
- o   Ex-Google employees se connect ho ke referrals lo

🎁 Bonus Tip

Agar tum Google me directly nahi ja pate, to:

- **Top startups** join karo (like Razorpay, Zeta, Swiggy, etc.)
- 1–2 saal me skills badha ke switch karo Google / FAANG me

🔚 Conclusion

⌨️ **Degree hona zaroori nahi, lekin skills aur dikhane layak proof hona zaroori hai.**
Agar tum consistently 1.5–2 saal achhe se kaam karo, to Google ka ₹2 Lakh/month ka goal possible hai.
